Experience

Advertising

- Concept to implementation of broadcast television, radio, closed circuit video and digital signage for on/off property media.

Branding

- Created art and animation concepts and assets for multiple Advertising Campaigns
- Worked closely with management and outside department leadership to cater to goals and needs.

Application Design

- Used object-oriented design/programming to design new graphical user interface application for department live closed circuit signage.

Technical Training

- Actively mentored, trained and supervised co-design members in software packages, production processes and general professional skills.

Problem Resolution

- Served as advocate for end-users, performing tests and problem analysis for server, desktop and IT infrastructure work.

Customer Relations

- Assisted and advised customers and department clients to achieve satisfaction, resolution of conflict and content development.
